

NICOLAS PERALTA

Software Engineer

SUMMARY

Detailed oriented software engineer with a deep interest in AI. Proven track record with a history of management and HR in creating and implementing successful full stack web applications. Looking to bring my skills to a tech company with global reach.

WORK EXPERIENCE

Software Engineer at 100devs

January 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

Nightmare Coffee Co (Fullstack Web App) – Cashiers can take orders from customers with their names. Baristas can login to the app and see orders that have been made, and mark them complete. Orders that have been completed will note which barista completed the order.

Legacy Notes (Fullstack Web App) – Users can login to their profile and find their list of notes. They can add new notes through an input, which they can then edit or delete all notes in their profile.

Other Projects: Dragon Echoes Casino Virtual Slot Machine, Pillars of Creation Society APOD Web App with NASA API integration, On-demand background color changer for Partnered Twitch streamer, and many more

Freelance Software Engineer

December 2021 — Present

Created full stack web applications and static websites for different clients across small and medium size businesses. Also, consulted on SEO and social media strategy.

Human Resources Coordinator at Enterprise Holdings | Coconut Creek, FL

April 2019 — Present

Directly managed multiple teams of employees at different locations. My performance got me promoted into HR, where I currently assist in overseeing 500+ employees with benefits and payroll and I also recruit for a major international airport location.
